# UiT Norges arktiske universitet

Undervisningsmetode	Instruction is a combination of weekly classroom teaching and practical studio tasks including recording, mixing, and composing with the help of music technology. There will also be workshops on live sound and concerts where students play using music technology. In addition, individual supervision and instruction will be given in connection with practical tasks and the planning and completion of recordings. Students should have access to their own computer and preferably their own recording software.
Info om eventuelle arbeidskrav	The following coursework requirements must be met before the student can take the exam: <ul style="list-style-type: none"><li>• submission of compositions, arrangements, and recordings by agreement with the teacher</li><li>• performance of own works and participation in a concert where music technology is used in a performance context by agreement with the teacher</li><li>• practical tests, including in the use of studio techniques by agreement with the teacher</li></ul>
Skriftlig skoleeksamen	
Hjemmeeksamen	Submission of two music productions or a concert, by agreement with the teacher. 7 days
Muntlig eksamen	Oral exam on the material submitted for examination.
