### Små driftsmidler ved UiT/2023

**Object: Application in connection to the Project on Follow Your Heart The school for multipotentialites (Margherita P. Poto) (Strategiske Midler 2023)**

As a permanent researcher at the Faculty of Law UiT The Arctic University of Norway, I am applying for supplementary funding for the project funded by the Faculty within the Program of Strategiske Midler 2023. In particular, in reason of the complexity of the project, that involves the organization of a seminar with the book authors (international researchers from Canada and Italy) and the realization of research and teaching materials connected to ecological and emotional education, further funds are needed to complete the project.

The book can be found [here](#)

The digital platform <https://www.followyourhearteducation.org/>

Thank you for considering my application,

Best regards,

Margherita Paola Poto

Workshop organization in Tromsø	NOK 63,600-
Dissemination and communication costs (1 documentary and 4 illustrations)	NOK 20,000-
<b>Total NOK 83,600-</b>	

### Costs explanation

**Book launch and workshop:** researchers in the field of ecological and emotional education, as well as the book authors will co-participate to a workshop organized in Tromsø and planned for mid September, as a side event of the ECO\_CARE midterm conference. The intent is to present this project result and develop a dialogue with the book authors and the researchers involved in ECO\_CARE. The funds are intended to cover 4 international flights (Toronto/Tromsø and Torino/Tromsø), for a total of 54.000 nok (2x15.000 and 2x12.000), and two nights accommodation for 4 people (1200x2x4=9600)

**Dissemination and communication costs:** in line with our developing strategy on an improvement of dissemination and communication costs (not covered by ECO\_CARE), and to strengthen the digital platform developed in ECO\_CARE, we are planning to develop one documentary, which includes 3 short e-learning videos on ecological and emotional education and research. The cost of the documentary is expected to be around NOK 10,000- (shooting and editing). To complement our visual law and legal design approach, we will need 4 illustrations (costs not covered by ECO\_CARE), to integrate the e-e-learning materials (10.000 nok).
